**PUCT Docket No. 48785**  
**PROPOSED ROUTE MODIFICATIONS CONSENT AGREEMENT**  
**(Link I2, Sand Lake to Solstice Portion)**

This document provides consent of the undersigned landowner (Landowner) to modifications to a potential route to construct a 345 kV transmission line in a pending application of Oncor Electric Delivery Company LLC (Oncor) and AEP Texas Inc. (AEP) for a certificate of convenience and necessity filed with the Public Utility Commission of Texas (PUCT).

Landowner is executing this document at the request of Occidental Permian Ltd., Oxy Delaware Basin, LLC, Oxy USA, Inc., Oxy USA WTP LP, Houndstooth Resources, LLC, and Occidental West Texas Overthrust, Inc, which are wholly-owned subsidiaries of Occidental Petroleum Corporation (together, Oxy). Landowner acknowledges that Oxy proposes or supports modifications (Proposed Modifications) to Link I2, which Oncor and AEP proposed in their application in PUCT Docket No. 48785.

Landowner affirms Landowner owns the land underlying the Proposed Modifications depicted in Exhibit A and attached to this agreement. Oncor's and AEP's proposed Link I2 is indicated by a yellow line in Exhibit A. Landowner acknowledges the Proposed Modifications would cause Link I2 to be constructed along the blue line depicted in Exhibit A. If the PUCT approves a route including Link I2, Landowner prefers for Oncor and AEP to route the to-be-constructed electric transmission line along the path following the blue line depicted in Exhibit A.

Oncor and AEP will only construct a transmission line using the Proposed Modifications if the PUCT approves in Docket No. 48785 a route including Link I2 and the Proposed Modifications.

Landowner agrees Oxy may file this agreement with the PUCT as evidence of Landowner's notice of, and agreement and consent to, the Proposed Modifications and location of the to-be-constructed transmission line if the PUCT approves a route containing Link I2 and the Proposed Modifications. This agreement does not grant an easement or construction rights.

This document may be performed in separate counterparts.
